(a) Distinct successful mandates
Probability of any successful hold
10^{-1}
10^{-2}
10^{-3}
Common release: exact
Independent release: exact
Independent availability
10^{1}
10^{2}
10^{3}
Number of suppliers M
(b) Matched marginal capacity
One-supplier idle probability q
Both release laws: exact
10^{-1}
10^{-2}
10^{-3}
10^{1}
10^{2}
10^{3}
Number of suppliers M
